DELAYED DELIVERABLES FOR OPERABLE UNIT (OU) 6 - NMH-484-93

The stop work order, which has been agreed on by the Environmental Protection Agency (EPA), the Colorado Department of Health (CDH), the Department of Energy, Rocky Flats Office (DOE, RFO) and EG&G Rocky Flats, Inc (EG&G Rocky Flats) to establish Human Health Risk Assessment (HHRA) methodologies, has postponed the completion of work on two deliverables to DOE The Contaminants of Concern (COCs) Technical Memorandum (TM) and the Toxicity TM were due to DOE on September 15, 1993 as specified in the OU 6 1993 Work Package The delivery of these two TMs has been delayed These are not Interagency Agreement (IAG) deliverables

Among the HHRA methodologies that are presently being established by EPA, CDH, DOE and EG&G Rocky Flats are the statistical method for evaluating background data and the data aggregation method for OU 6 The COC TM is dependent upon statistical methods and data aggregation The Toxicity TM is dependent on the COC TM

Once the methodology is established and EG&G Rocky Flats is directed to proceed, the two TMs will be delivered on a mutually agreed upon schedule If you have questions regarding this letter, please contact P J Laurin of Remediation Project Management at extension 8702
